Gomez has since quashed fans' speculations around a fight with Jenner, but later criticized Bieber over a resurfaced video. So, are the high-profile trio feuding? Here's what we know so far.

What happened between Kylie Jenner and Selena Gomez?

If you somehow missed it amidst all of the buzz, the drama began after Gomez posted a video saying that she accidentally laminated her eyebrows too much, as [TMZ reports](#).

Just a few hours later, Jenner posted a screenshot of a FaceTime with Bieber, which focused on their eyebrows. The post came accompanied by a selfie with the caption, “this was an accident?????” over her eyebrows.

Gomez fans were quick to speculate that Jenner was poking fun at the *Only Murders in the Building* star, but both Jenner and Gomez reportedly denied that their posts were connected.

“This is reaching,” Jenner commented, according to [Us Weekly](#). “No shade towards Selena ever and I didn’t see her eyebrow posts! U guys are making something out of nothing. This is silly. [sic]”

Gomez responded by urging that she wasn't phased by the video.

"I don't let these things get me down!" Gomez wrote in a comment. "Be nice to everyone! x."

So, it's tough to say whether there's any truth to the rumours, but one thing's for sure: in 2023, a pair of eyebrows can send the entire internet into a spiral.

Fans think Justin Bieber threw shade at Selena Gomez with party favours

In the middle of Selena Gomez and Hailey Bieber's rumoured online feud, fans speculated that Justin Bieber threw shade at his ex, Gomez, with his birthday party favours, as [Page Six](#) reports.

At Justin's 29th birthday, attendees appeared to receive a party favour that was inscribed with, "I'm so thankful that I didn't end up with what I thought I wanted," which sent fans into a spiral as they speculated that it was about Gomez.

A source told *Page Six* that the object with the inscription was not actually a party favour, but a gift given to Justin that had nothing to do with the drama between Hailey and Selena.
